

# Connector mount bracket for IC-705 and FT-818ND

## CST-30

This is a connector mount base for direct mounting of ICOM IC-705 radio and YAESU FT-817ND, FT-818ND.

- The angle can be changed to match the installation angle of the radio.
- BNC Male to SO-239 conversion cable is included.
- Holes are provided for SMA and BNC bulkhead connectors to be mounted.
- The mounting bracket is sturdy and only needs to be tightened with two knurled knobs.

Installation on ICOM IC-705
